Installation example *Linearis*

The *Linearis* shower channel features a narrow, elegant stainless steel channel ① which can be discreetly integrated into the bathroom design. With a flow capacity of 24 liters per minute the *Linearis* shower channel is ideal for mounting against the wall at the back of the shower. For cleaning and maintenance purposes the stainless steel channel and tileable access opening ② can be removed allowing full access to the odor trap and drain body.

Professional advantages

- **Flow rate 0.4 l/sec**
- **Extremely narrow and elegant channel**
- **Easy cleaning**
Access cover for easy cleaning and maintenance
- **Particularly suitable** for installation on the wall side
- **Channel length:** 750 mm, 850 mm, 950 mm, 1150 mm
- **Flexible modular system** with a large number of components.
